

HP Compaq 2510p Bluetooth Adapter Replacement

This guide will show step-by-step instructions to replace the bluetooth adapter in the HP Compaq 2510p. .

Written By: Derek Kohansky

INTRODUCTION

This guide will show step-by-step instructions to replace the bluetooth adapter in the HP Compaq 2510p. .

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Bluetooth Adapter

- Place the laptop upside down, with the battery facing away from you. Towards the bottom-middle of the laptop, you should see a small panel with a Bluetooth symbol.

Step 2

- There is 1 screw on the panel you located in step one. Use your Philips head screwdriver to remove the single screw.

Step 3

- Remove the Bluetooth panel by pulling it with your finger.

 Pull gently as there is a wire connecting the laptop and the adapter.

Step 4

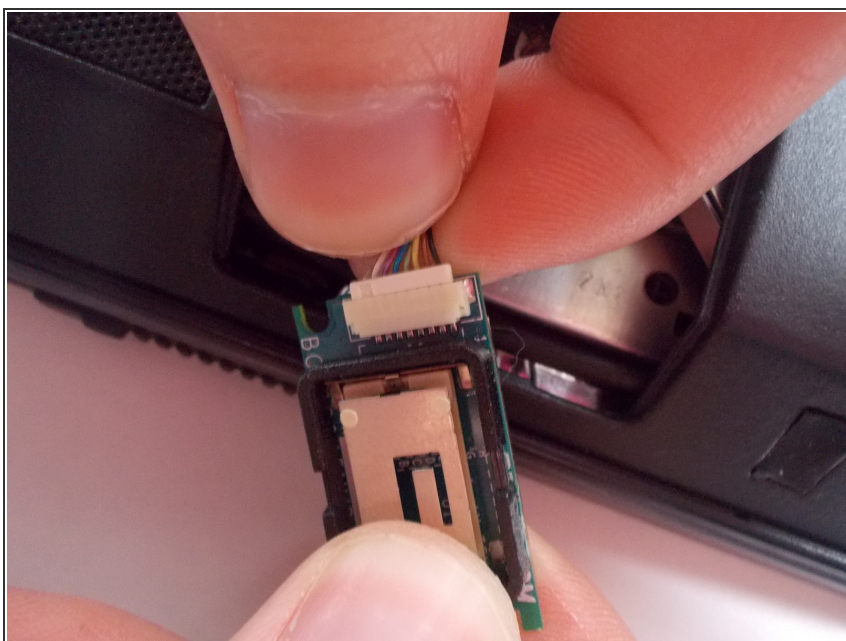

- Pull the adapter to the left exposing its underside. Locate and remove its only screw using your Phillip's head screwdriver.

Step 5

- Separate the Bluetooth adapter by pulling it from its casing.

Step 6

- Remove the adapter by pulling on the base of the connecting wires and the adapter, in opposite directions.

 Use moderate force.

To reassemble your device, follow these instructions in reverse order.
